**I undersigned declare on my honour that:**

- At my best knowledge the present Declaration of interest is true and complete. I am aware that I will be responsible for updating this Declaration whenever the situation changes in respect of the interests declared and I will have the primary responsibility for spontaneously declaring any conflicts of interest at all times, with special attention to any interest which might be considered prejudicial to my independence in relation to questions addressed regarding the training of trainers for EUPC.
- I have read and I am aware of the content of the Privacy statement on the protection of personal data resulting from this Declaration, as it is provided here below, and I am aware that this Declaration will be made available for public scrutiny on the EMCDDA website, with due respect to EU rules on protection of personal data.
- I have read and I am aware of the EMCDDA Policy for the prevention and management of conflicts of interest as adopted by the EMCDDA Management Board at its meeting of 5 December 2014 (EMCDDA/29/14 as published on the EMCDDA website). In particular I am aware of the following provisions of this Policy:
  - In order to fulfil its tasks, the EMCDDA needs to have access to the highest level of expertise available in the areas of activity covered by its mandate and mission, as defined in its founding regulation. This expertise is often extremely specialised and the possible choice of alternative expertise is not always available. It is therefore essential that the EMCDDA can still be given access to specialised experts, while being made fully aware of all interests involved and possible risks of conflict of interests (or appearance of conflict of interests), in order to act upon these risks.
  - The need to avoid conflicts of interest should not prevent the EMCDDA from collaborating with and seeking input from high-level experts. As the persons concerned are generally experienced and may have interests arising out of their professional background and capacity, appearance of conflict of interest, cannot always be entirely avoided. The risks of actual or perceived conflicts of interest should be identified, evaluated and managed. This is particularly relevant in areas where available expertise is limited. A fair, proportionate and timely handling of each case should therefore be ensured pursuant to a policy on prevention and management of conflicts of interest which reflects the perceived exposure of the agency to the relevant risks, taking into account the tasks entrusted to it.
  - A conflict of interest generally refers to a situation where it can be reasonably considered that the impartiality and objectivity of an assessment, opinion, recommendation or decision of the agency is or might be perceived as being influenced, compromised or biased by a personal interest held or entrusted to a given individual. Relevant personal interest may be of financial or non-financial nature and it may concern a personal or family relationship or professional affiliations and other relevant outside activities.
  - Not only actual independence but also perception of independence is important, since this issue can impact on the agency's reputation by raising doubts about the quality of trainings or publications. The appearance of conflict of interest can constitute a reputational risk to the agency, even if it turns out to be unsubstantiated.
  - Pursuant to the relevant provisions of the EMCDDA founding regulation, EUPC Trainers shall be acknowledged as such in a personal capacity and in view of their scientific or professional excellence and their independence, and shall provide the trainings completely independently of the EU Member State and EU institutions.
  - In this context *EUPC Trainers* shall act in the best possible interests of the EMCDDA and its mission, independently from any academic, institutional, industrial, political or other specific interests they might have.

- The EMCDDA recognises that the expertise of the aforementioned actors is crucial for the fulfilment of its tasks and that the quality of such expertise is inherently based upon prior and current academic and professional experience. These actors should therefore be able in principle to combine their tasks as *EUPC Trainers* with other positions or activities, public or private, unless it can be reasonably considered that the impartiality and objectivity of their assessments, opinions, recommendations, statements or decisions is or might be perceived as being influenced, compromised or biased by a personal interest linked to these positions/activities.
- This declaration of interest shall not imply by itself the existence of any conflict of interest. Declaring an interest shall not necessarily mean having an actual or potential conflict of interest, nor shall it automatically disqualify a person from acting as as *EUPC Trainer*.
